

Keep an eye out for your In-Car Evaluation after each behind the wheel session!

Upon completion of every driving lesson, your Top Driver instructor will perform an in-car evaluation to assess student performance and provide feedback.

The in-car evaluation form contains lesson objectives and includes instructor comments and feedback on the behind the wheel lesson.

This informative report will be emailed to parent/s after each behind the wheel session is finished.

This information will be valuable to you as a parent when you complete practice driving sessions with your student.

Instructor input will guide you on which driving skills to concentrate on for further development, as skills are honed through practice.

Don't forget to record all practice driving sessions on the [50-Hour Practice Driving Log](#)

IN-CAR EVALUATION FORM
